NEW PROJECTS

During the previous period our company was assigned the following projects:

Technical Consultant to the Managing Authority of Sterea Ellada OP for the design, consultation and approval of the Operational Programme 2021-2027 (ERDF) (Greece)

Contracting Authority: Managing Authority of the Sterea Ellada Operational Programme 2014-2020

The project refers to the provision of technical support to the Managing Authority for the coordination, preparation and drafting of the Operational Programme (OP) of the Sterea Ellada region for the programming period 2021-2027. The support will be provided throughout the entire design process of the 2021-2027 OP regarding the operations co-funded by the ERDF and will take into account the relevant institutional framework and guidelines of the National Coordination Authority for the design of the Partnership Agreement 2021-2027.

Provision of services for the external evaluation of the project “University Liaison Offices with the labour market” (Cyprus)

Contracting Authority: University of Cyprus

The project refers to the evaluation of the co-funded project “University Liaison Offices with the labour market” which includes:

- a) evaluation of the objectives set in the project (qualitative, quantitative),
- b) evaluation of the effectiveness and efficiency of the project’s operations, in terms of their usefulness, the use of resources and their duration, and
- c) recommendations for the formulation of policy proposals on the connection of the Universities with the needs of the real economy in Cyprus.

Permanent Consultation Hub (ERDF, ESF) for operations of the approved Sustainable Urban Development Strategy of the Association of South Attica Municipalities (SYDNA) in the context of the Integrated Territorial Investments (ITI) for Sustainable Urban Development of the OP Attica 2014-2020 (Greece)

Contracting Authority: Association of South Attica Municipalities (SYDNA)

The project includes:

- Informative texts in simple language before the start of the implementation of the operations managed by SYDNA acting as Intermediate Body under the investment priorities of the European Regional Development Fund (ERDF) and the European Social Fund (ESF).
- Specific surveys to capture the views on the operations managed by the SYDNA Intermediate Body and specially designed informative material for individual target groups.

Technical Consultant for setting priorities of the Integrated Territorial Investments (ITIs) in the new programming period (Greece)

Contracting Authority: Regional Development Institute (Panteion University of Social and Political Sciences, Greece)

The project includes the following:

- Guidelines of the cohesion policy in the new programming period and the role of ITIs.
- Evaluation of the ITIs in the context of the EU cohesion policy by highlighting good practices.
- Evaluation of the implementation of the ITIs in Greece and in particular in the Attica region and identification of key problems.
- Policy guidelines for the ITIs in the programming 2021-2027 and especially for the ITIs of the Attica region.
- Submission of proposals for the implementation of the ITIs in the Attica region.

Provision of technical support for the design of the Integrated Territorial Investments Strategy for the municipalities of Latsia and Geri (Cyprus)

Contracting Authority: Nicosia Development Agency (ANEL)

The project includes the provision of technical support to the Local Authorities' Network comprising the municipalities of Latsia and Geri for the design of the Integrated Territorial Investments Strategy in the programming period 2021-2027 (draft of the Strategy and Final Report).
